DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on July 18, 2003 has been entered.

Claim Rejections - 35 USC § 103 withdrawn

2. Claims 11-28 rejected under 35 USC 103(a) as being unpatentable over Marchal in paper no. 10, paragraph - 3, mailed on April 16, 2003 has been withdrawn in view of the amendment to the claims filed on July 18, 2003.

3. Claims 29 and 30 rejected under 35 USC 103(a) as being unpatentable over Marchal in paper no. 10, paragraph - 4 has been withdrawn in view of amendments filed on July 18, 2003.

4. Claim 31 rejected under 35 USC 103(a) as being unpatentable over Marchal in paper no. 10, paragraph - 5 has been withdrawn in view of amendment filed on July 18, 2003.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the

Art Unit: 1772

art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

6. Claims 11-31 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The phrases "the entire top surface" and "the entire bottom surface" in claims 11 and 27 are found to be new matter as it is not supported by the originally filed specification. Further the substitute specification filed on January 10, 2003 (with amendment B) also contains the new matter subject in page 4, line 8 and page 7, line 14.

Similarly, the phrase "without an interposed substrate" in claims 11 and 27 are also deemed to be new matter as it is not supported by the originally filed specification.

Specification

7. The amendment filed January 10, 2003 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: The phrase "over the entire surface of the backing layer".

Applicant is required to cancel the new matter in the reply to this Office Action.
